Cergo
Operator Desk System

—
Cergo model B5 with optional equipment motorized base, dual monitor holders, light unit, sideboards, and noise dampening back panels.

—
Solid, ergonomic, and configurable.

Built to last
Built to last in the toughest 24/7 environments with a solid base in anodized aluminum and steel. The desk and it's ergonomic features exceed ISO 11064 & EEMUA 201 recommendations when equipped with the motorized frame. We offer a wide range of accessories that enables upgrades to meet future requirements.

Accessories for every need
With the wide range of accessories you'll find solutions to store computers or personal affects, arrange monitors, reduce noise, increase desk area, integrate non-glare light and personal sound system along with other technical equipment. In the end your customized desk will give you a space efficient solution, easy to clean and maintain.

A model for any design
The CERGO desk system comes in a wide range of sizes and shapes. The solid base allows great flexibility, allowing heavy equipment to be mounted as part of the desk. The desk system is useable for customized designs and to facilitate special equipment.

Design made easy
We have made all models available in CAD, BIM and Sketch up models for ease of use when designing your interior. We can also assist creating your next collaborative environment, please contact us for support.

Customize your desk for optimal performance
• Adjustable light, always centered above workplace
• Monitor holder for best alignment of monitors
• Shelf that keeps computers off the floor and reduce cabling problems with height adjustment
• Protective back panels in noise reducing material
• Optional base frame design allows height adjustment of the whole desk or work and monitor board separately

—
